INTRODUCTION

This book was written from the heart! Our intention is to create a feeling of “Team Family” in your home. You will achieve the feeling of being more connected to your family as each family member participates in answering the following questions and log entries.

Your book is created by your team family and filled with many thoughts, ideas and adventures your family embarks on through the years. It is a special keepsake to cherish and enjoy forever! Part of the fun is filling in the questions and hearing each person’s response. Another value of the book is to flip through it and to revisit how you answered certain questions at that point in your life.

By answering the questions together you get to know your family better. This is a great way to learn things about each other that you may otherwise never know. The kids also enjoy seeing how they have changed and how their answers may be different, as they have matured.

HOW TO USE THIS BOOK

Your book can be taken and used anywhere, anytime. For example, you can use it at home, bring it to restaurants, use it in the car, doctor's offices, or vacations. Everyone with you can participate, including the waitress at your table or your grandmother who is visiting.

The questions can be answered more than one time. After a couple of years, you may want to include updated answers to indicate new perspectives that your family may have.

The only rule is that there is no judging of answers. This would keep others from sharing from their hearts and their true selves. Each person can write in their answer, draw pictures, or someone can write it in for them.

Enjoy your new book and the deeper connection with your family!

CONTENTS
